Proposal for Phase-II implementation of Zakath E-invoice

Requirements

1. Configure Advance/Discount transaction types.
2. Enable the transactions to be included in the existing integration
3. Code changes to accommodate advance/discount in the new JSON structure.

Duration:
- Requirements Clarification - 1 Week
- Development & Unit Testing: 2-3 weeks
- UAT: 1 week
- Go-Live: 6th Week

We are offering fixed costing for Phase-II implementation of Zakath E-invoice. Cost is fixed as 1700 USD.
